Your share of the partnership's trading or professional profits

Basis period reform simplifies the tax rules for the self-employed and partners so that a business's profit or loss for a tax year is measured over the tax year itself, regardless of its accounting dates or whether a business has recently started trading. This removes the complex basis period rules and stops profits being taxed twice, as may have occurred under the old rules (overlap relief).

You may be affected by basis period reform if you had an accounting date that was not on or between 31 March and 5 April in the 2022–23 tax year.

If you have a transitional profit or loss to report due to the transition to the new tax year basis, you may need to complete additional boxes 16.1 to 16.4.

Please refer to the Partnership Statement to complete these pages and if you need any help, read the 'Partnership (full) notes'. If you want to enter a loss, or an adjustment needs to be taken off, put a minus sign (-) in the box next to the £ sign.
